

# FUNDAMENTALS OF SUCCESS

**By Dr. Murtaza bakhsh**

**October , 2009**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

وَالْعَصْرِ ۝١ إِنَّ الْإِنْسَانَ لَفِي خُسْرٍ ۝٢ إِلَّا الَّذِينَ آمَنُوا وَعَمِلُوا الصَّالِحَاتِ

وَتَوَاصَوْا بِالْحَقِّ وَتَوَاصَوْا بِالصَّبْرِ ۝٣ (سورة العصر)

In the name of Allah, the Beneficent, the Merciful

By Al-'Asr (the time). (1) Verily, man is in loss, (2) Except those who believe (in Islâmic Monotheism) and do righteous good deeds, and recommend one another to the truth (i.e. order one another to perform all kinds of good deeds (Al-Ma'ruf) which Allâh has ordained, and abstain from all kinds of sins and evil deeds (Al-Munkar) which Allâh has forbidden), and recommend one another to patience. (3)

# Disaster in Hiroshima and Nagasaki...

**CAUTION:** The Disaster Slides are not Suitable for  
CARDIAC PATIENTS, HYPERTENSIVES and  
CHILDREN.

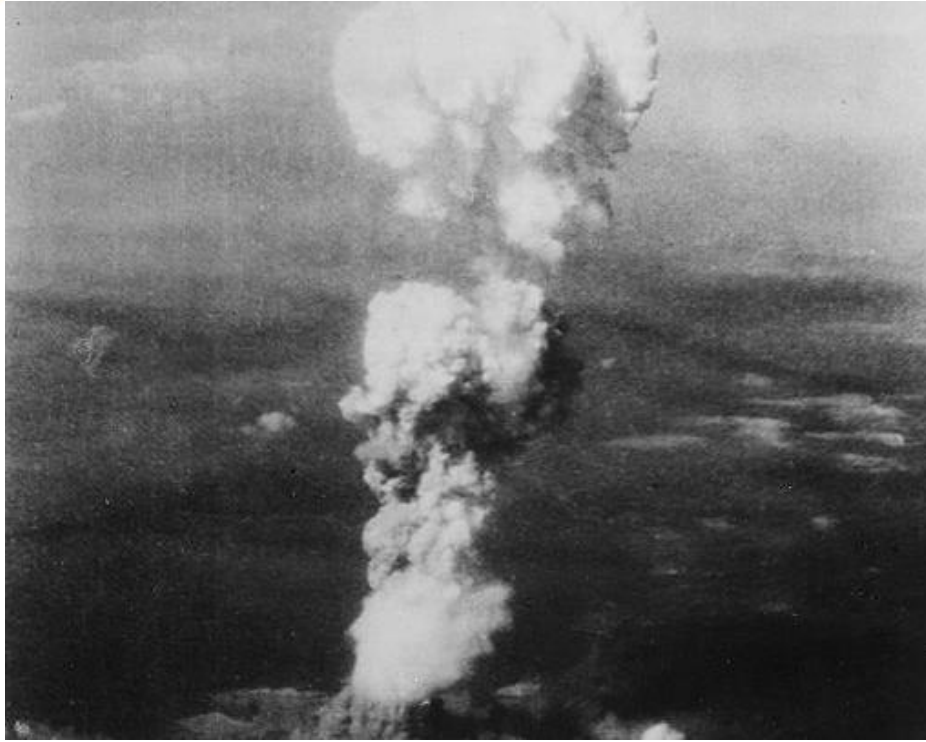

# Japan

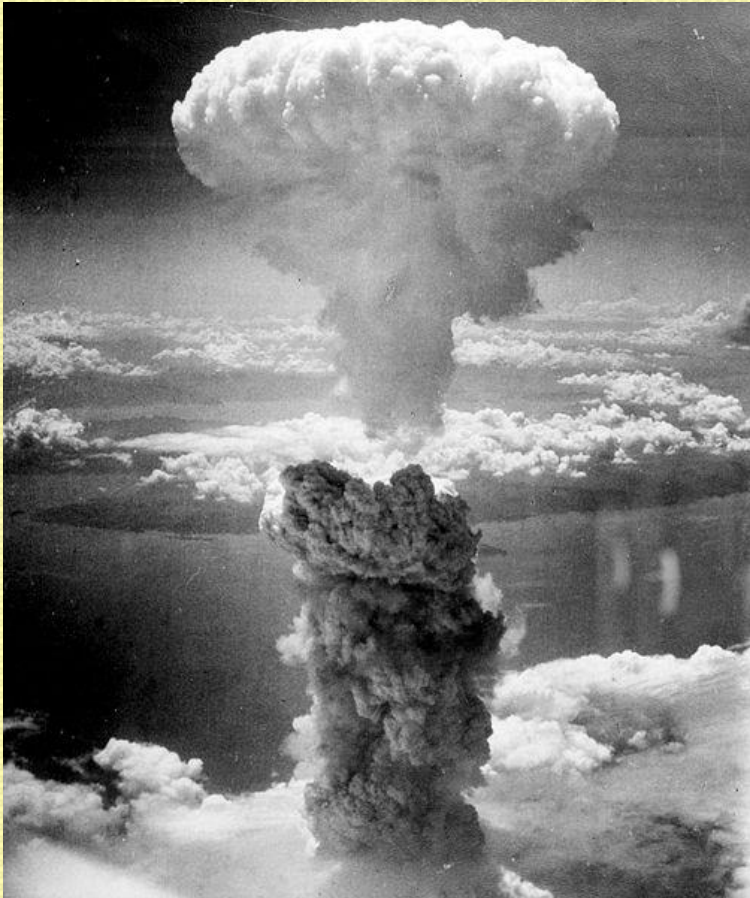

The atomic bombings of Hiroshima and Nagasaki were nuclear attacks near the end of World War II against the Empire of Japan by the United States at the executive order of U.S. President Harry S. Truman **on August 6 and August 9, 1945**, respectively. The nuclear weapon "Little Boy" was dropped on the city of Hiroshima on Monday, August 6, 1945, followed on August 9 by the detonation of the "Fat Man" nuclear bomb over Nagasaki. These are to date the only attacks with nuclear weapons in the history of warfare.

**In Hiroshima the atomic cloud (mushroom cloud) produced just after the burst is one of the most intensive characteristics of the A-bomb explosion. Clouds were observed. Altitude of 12,000 meters or more**

**In the early morning hours of August 6, 1945, a B-29 bomber named *Enola Gay* took off from the island of Tinian and headed north by northwest toward Japan. The bomber's primary target was the city of Hiroshima. Hiroshima had a civilian population of almost 300,000 and was an important military centre, containing about 43,000 soldiers. Hiroshima was described as "an important army depot and port of embarkation in the middle of an urban industrial area.**

**The Fat Man mushroom cloud resulting from the nuclear explosion over Nagasaki rises 18 km (11 mi, 60,000 ft) into the air from the hypocenter.**

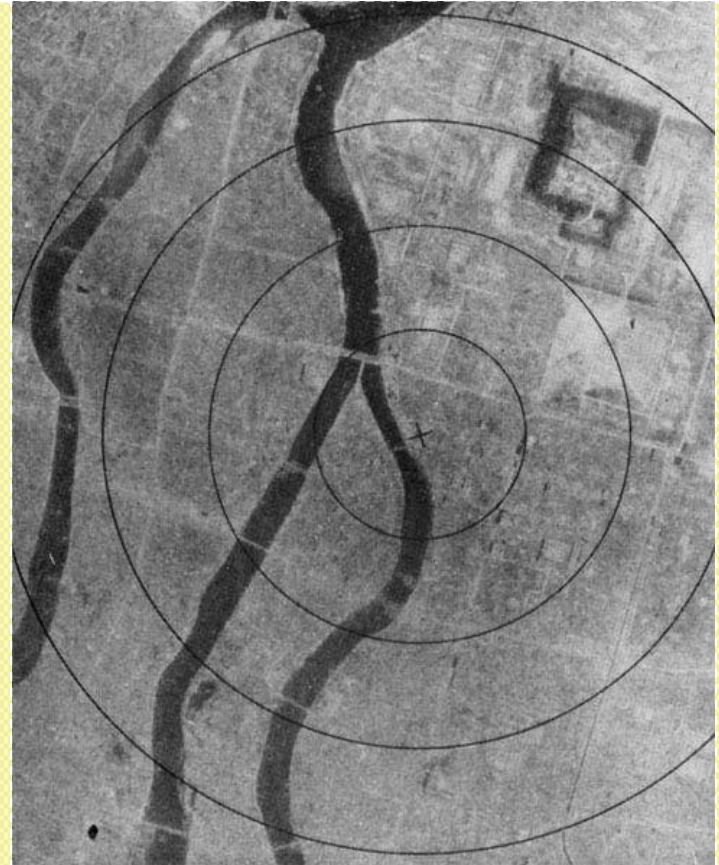

**The bombing of Nagasaki on August 9th was the last major act of World War Two and within days the Japanese had surrendered. The city of Nagasaki had been one of the largest sea ports in southern Japan and was of great wartime importance because of its wide-ranging industrial activity, including the production of ordnance, ships, military equipment, and other war materials.**

Hiroshima before the bombing

Hiroshima After the bombing

**The bombs killed as many as 140,000 people in Hiroshima.**

Nagasaki before the bombing..

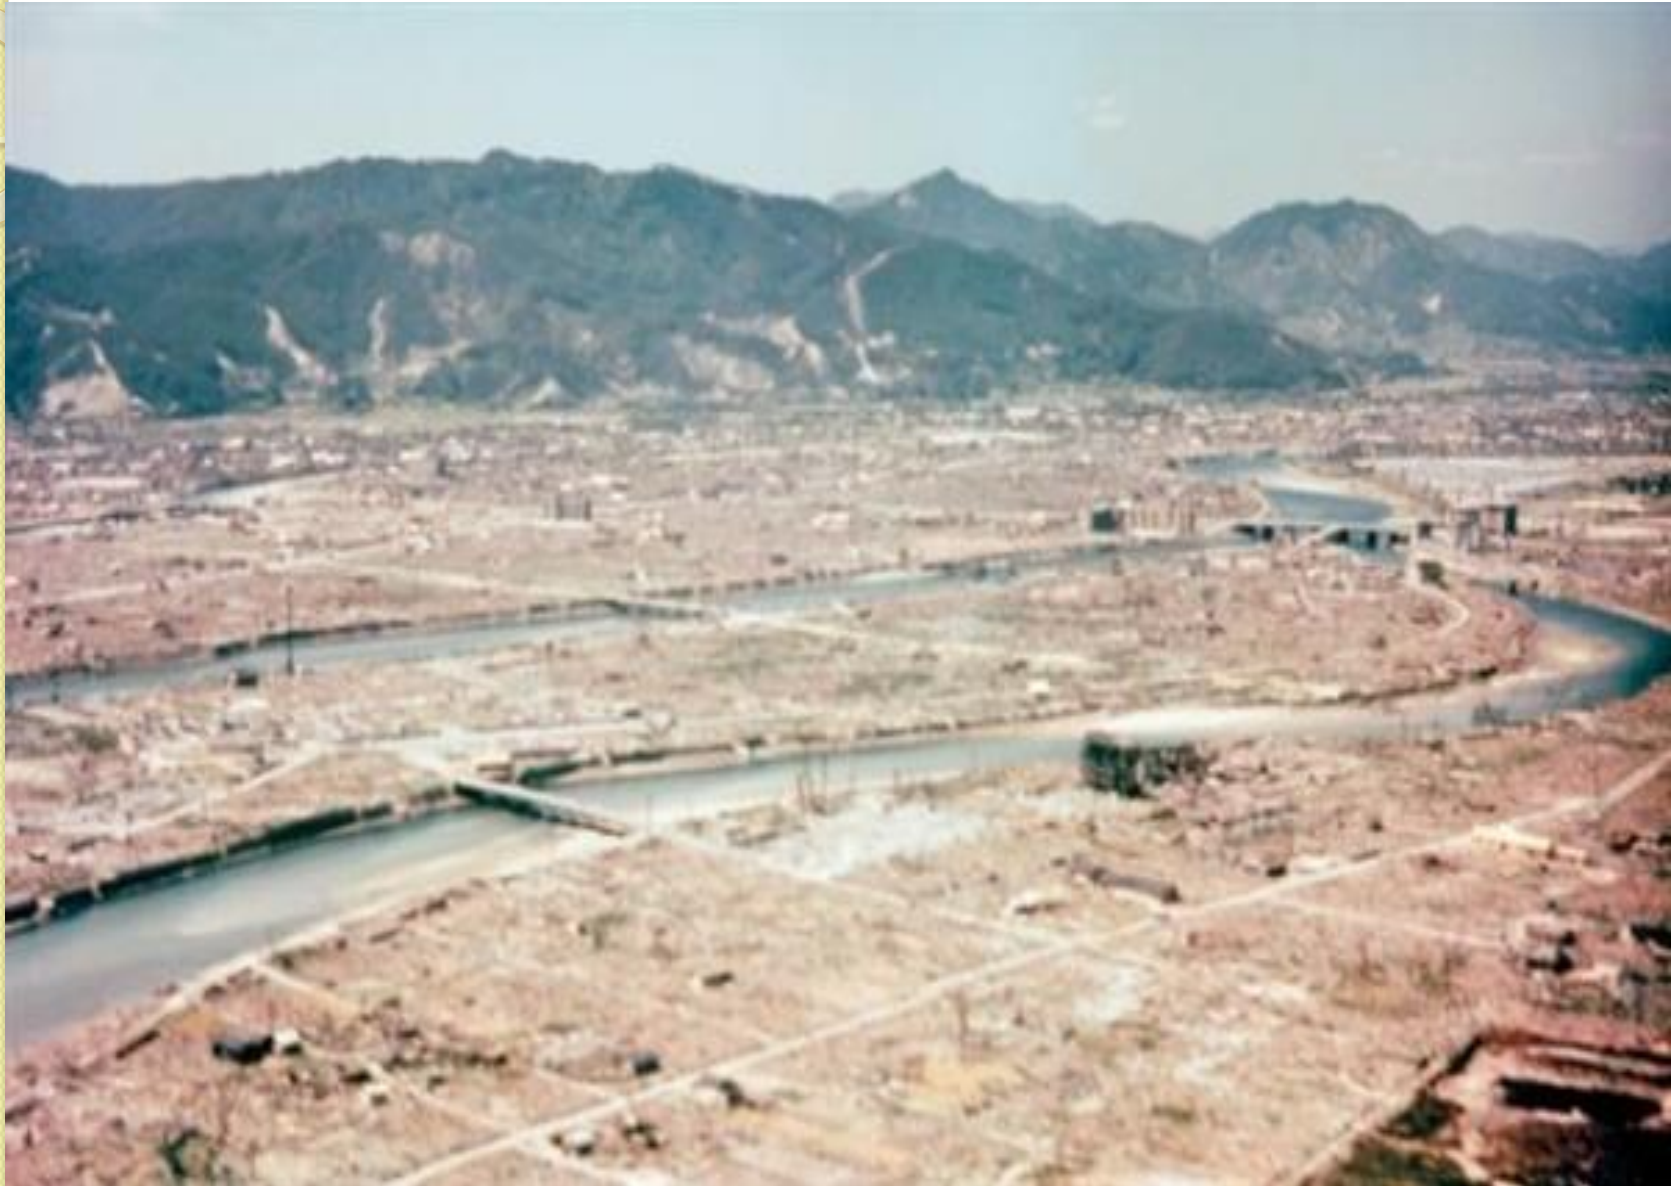

Nagasaki after the bombing..

**The bombs killed as many as 80,000 people in Nagasaki.**

# Hiroshima Was Burnt To Ashes...

## Disaster Near The Hypocenter

## A Factory Destroyed By The Blast

**Fierce heat rays and radiation burst out in every direction, unleashing a high pressure shockwave, vaporising tens of thousands of people and animals, melting buildings and streetcars, reducing a 400-year-old city to dust.**

## Hiroshima Prefecture Industrial Promotion Hall..

## A Building Brought To Knees By The Blast..

**There were many buildings of Ferro-concrete structure in Hiroshima, mostly in the vicinity of the hypocenter. According to a survey, these durable buildings were only destroyed if they were within 500 meters of the hypocenter. Buildings of earthquake-proof construction were damaged only on the inside. However, many buildings situated beyond 500 meters were essentially destroyed too, as in the case of this clock store situated farther than 500 meters.**

## Thermal Rays Leave Human Shadow On Stone Steps ...

The left photograph shows the stone steps of the main entrance of Sumitomo Bank which is only 250 meters from the hypocenter. It is believed that a person sat down on the steps facing the direction of the hypocenter, possibly waiting for the bank to open. By a flash of the heat rays with temperatures well over a 1,000 degrees or possibly 2,000 degrees centigrade, that person was incinerated on the stone steps.

## Thermal Rays Leave Shadow Of Handrail..

The right photograph shows the shadow made by the heat rays. This place is about 800 meters from the hypocenter, and the unshielded asphalt surface was scorched, whereas the surface shielded by the handrail appears to be a whitish shadow.

## Houses of citizens...

**Beneath the centre of the explosion, temperatures were hot enough to melt concrete and steel. Within seconds, 75,000 people had been killed or fatally injured with 65% of the casualties nine years of age and younger.**

## 300-Year-Old Camphor Tree Uprooted By The Blast..

**By a blast pressure of 19 tons per square meter, the tree was uprooted. Also, hundreds of tombstones were knocked in all directions by the complex flow of wind from the blast.**

**The Atomic Bombings of Hiroshima and Nagasaki killed about 250,000 people and became the most dreadful slaughter of civilians in modern history. However, for many years there was a curious gap in the photographic records.....**

# The Burned Corpses...

# A Burned Corpse of a boy and one year old baby...

Housewives and children were incinerated instantly or paralysed in their daily routines, their internal organs boiled and their bones charred into brittle charcoal.

**A Boy Who Received Radiation Burns On His Whole Body...**

Doctors "gave their patients Vitamin A injections. The results were horrible. The flesh started rotting from the hole caused by the injection of the needle. And in every case the victim died".

## Subcutaneous Haemorrhage..

## Atomic Bomb Cataract Caused By Radiation...

**The left photograph shows a 21-years-old soldier who was in a wooden house situated 1 kilometre from the hypocenter. Since he was indoors, he was saved from burns, but, as he received cuts on his buck, right elbow and right belly, first-aid treatment was given to him and purplish subcutaneous haemorrhage starts to appear. September 3 he Died at 9:30 p.m.**

**And the right photograph shows an eyeball of an A-bomb victim who got an atomic bomb cataract. There is opacity near the centre of the eyeball.**

# Hiroshima atomic bomb survivor

GOOD@YOUTUBE.COM@.COM

(456): Hiroshima Atomic Bomb Survivor

The bombs killed as many as 140,000 people in Hiroshima and 80,000 in Nagasaki by the end of 1945, with roughly half of those deaths occurring on the days of the bombings. Amongst these, 15–20% died from injuries or the combined effects of flash burns, trauma, and radiation burns, compounded by illness, malnutrition and radiation sickness. Since then, more have died from leukaemia (231 observed) and solid cancers (334 observed) attributed to exposure to radiation released by the bombs. In both cities, most of the dead were civilians.....

*This was Japan*

*1945*

***This is Japan***

***TODAY***

***2009..***

**Hiroshima 2009**

# Car parking

# MANNERS

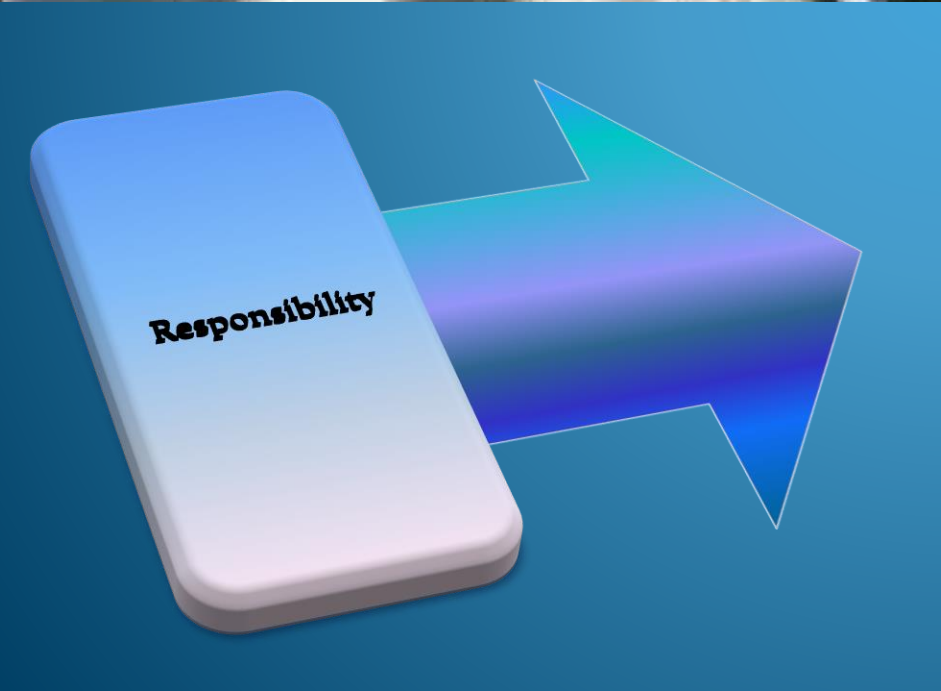

**This is a house of a cleaner.**

**He is called as  
cleaning Engineer.**

**His salary is 75,000 to  
100,000 \$ per year.**

**He is proud to be a  
cleaner.**

To every  
problem there  
is always a  
good solution.

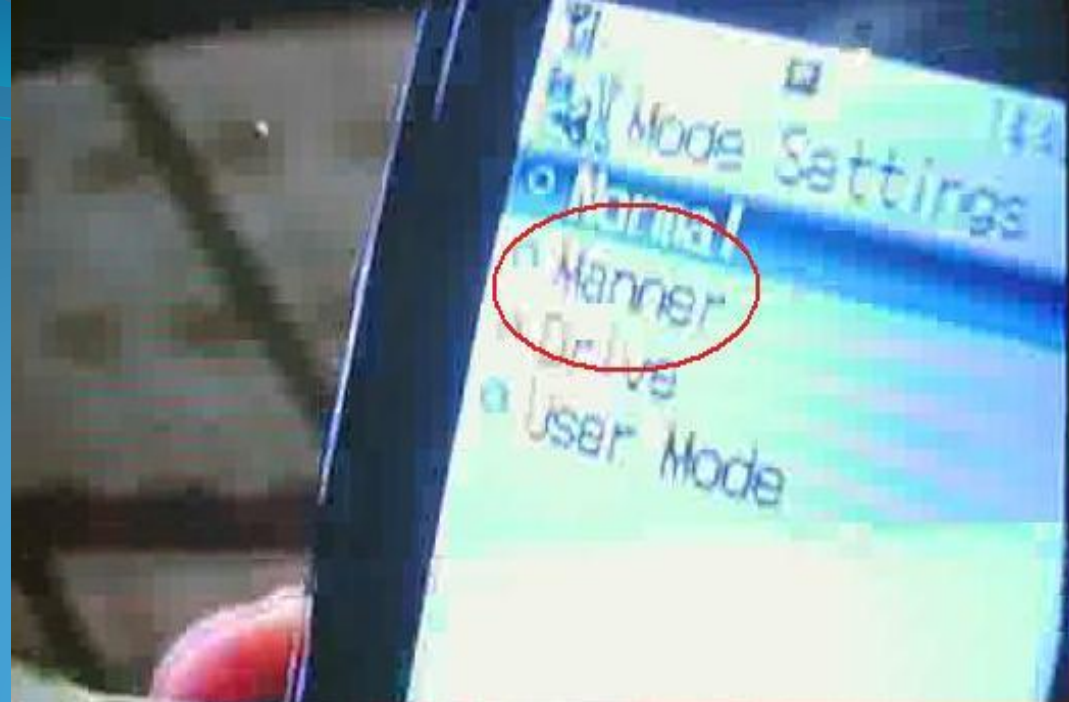

To every problem there is always a good solution.

**Manners**

**Etiquettes**

# Discipline

Shoes Vending machine.

**Strict Smoking rules**

**Portable ash bag**

# Nothing is Lost in JAPAN

**There is always a SECRET  
BEHIND A SUCCESS...**

What is their SECRET OF SUCCESS???

Secret of success

September 1945

# CHILDREN EDUCATIONAL PROGRAMS:

- 1. Schools.** ( Principal, Teachers, Road crossing manners, Classroom, new students(seeds) breakfast, shoes etc..)
- 2. Homes.** ( Parents are responsible. No baby sitters. Time management etc..)
- 3. Public library.** ( In Tokyo it has 9 floors of different sections. Books only in Japanese language. Talking books( Kanji) etc..)
- 4. Kidzania.** ( A city of educational funny games)
- 5. Animal Farms.** ( Animals are friends, Animals have rights. How to feed an animal? etc..)
- 6. Special safety training centres.** ( Earth quakes, fire etc..)
- 7. Environmental education.** ( Educates manners and dicipline etc..)

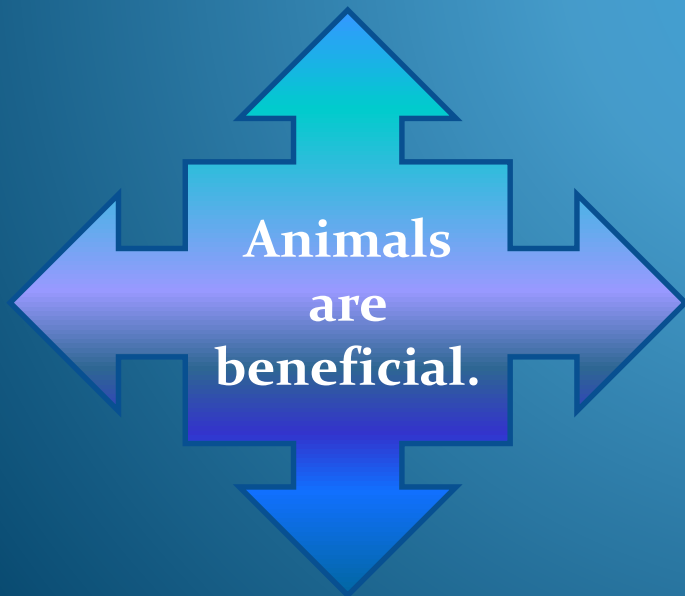

Students and teachers clean their classes.

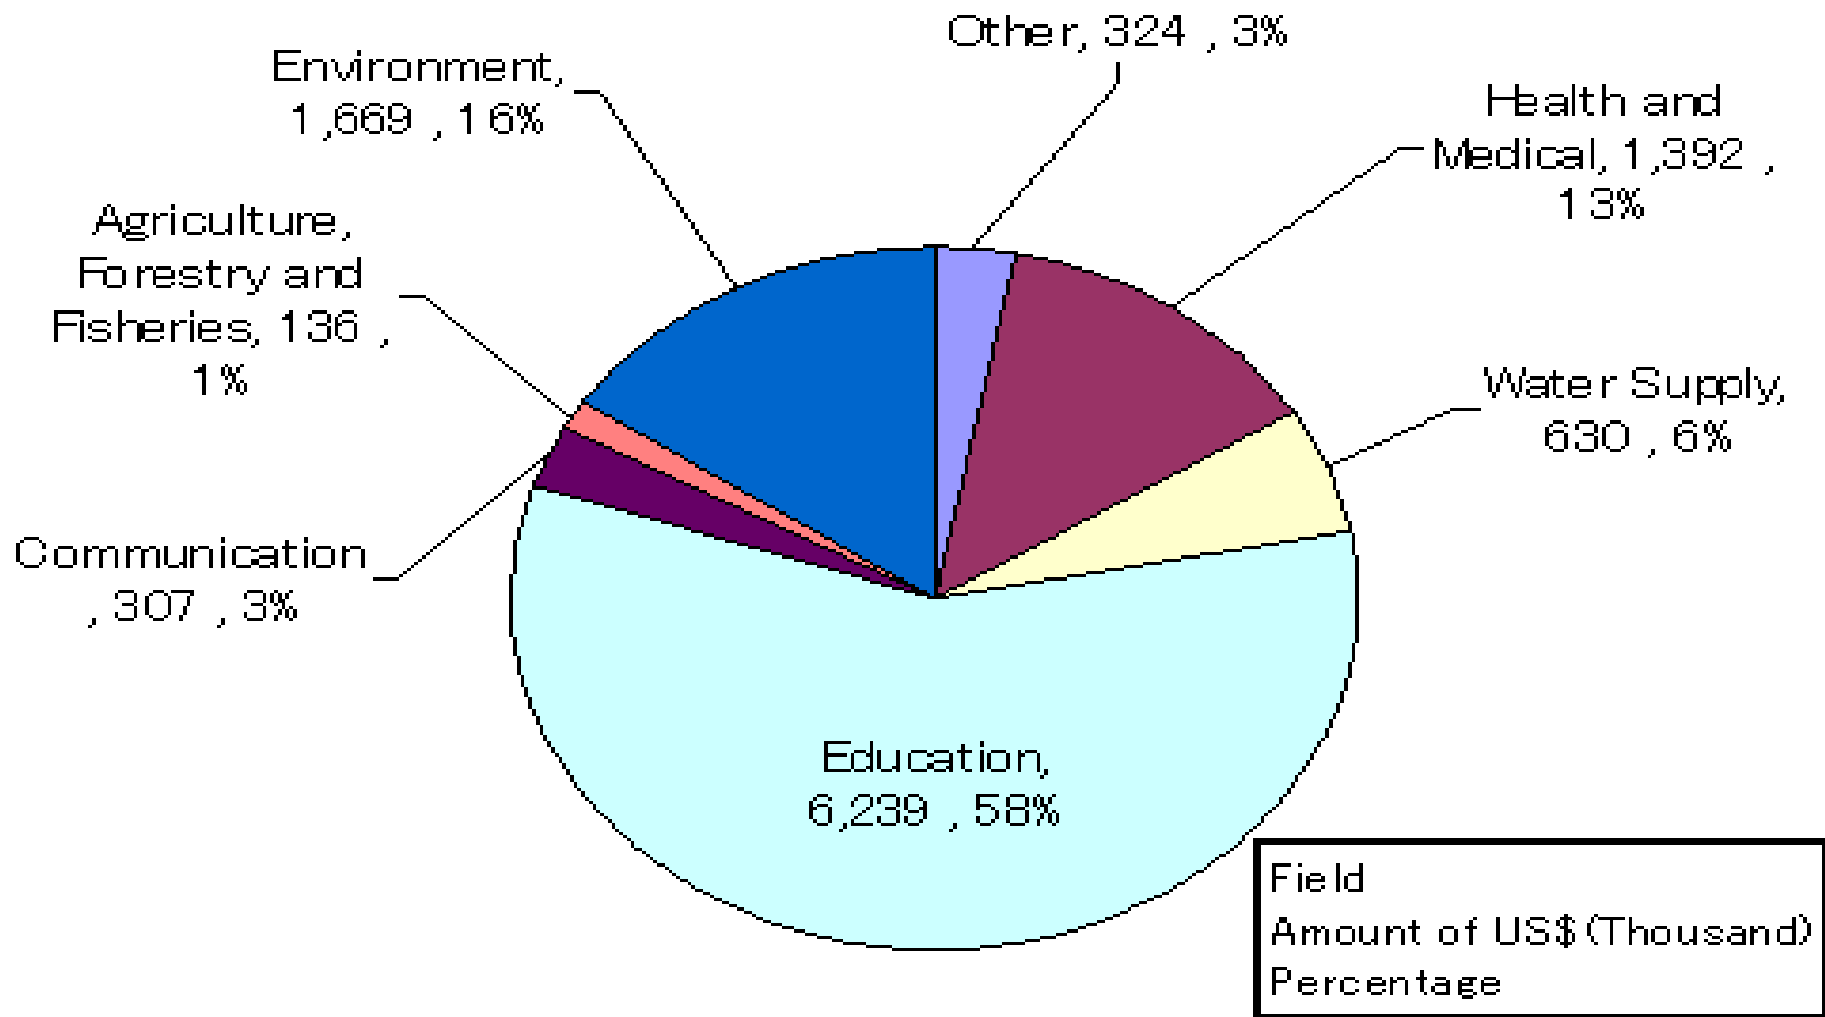

**No comments.**

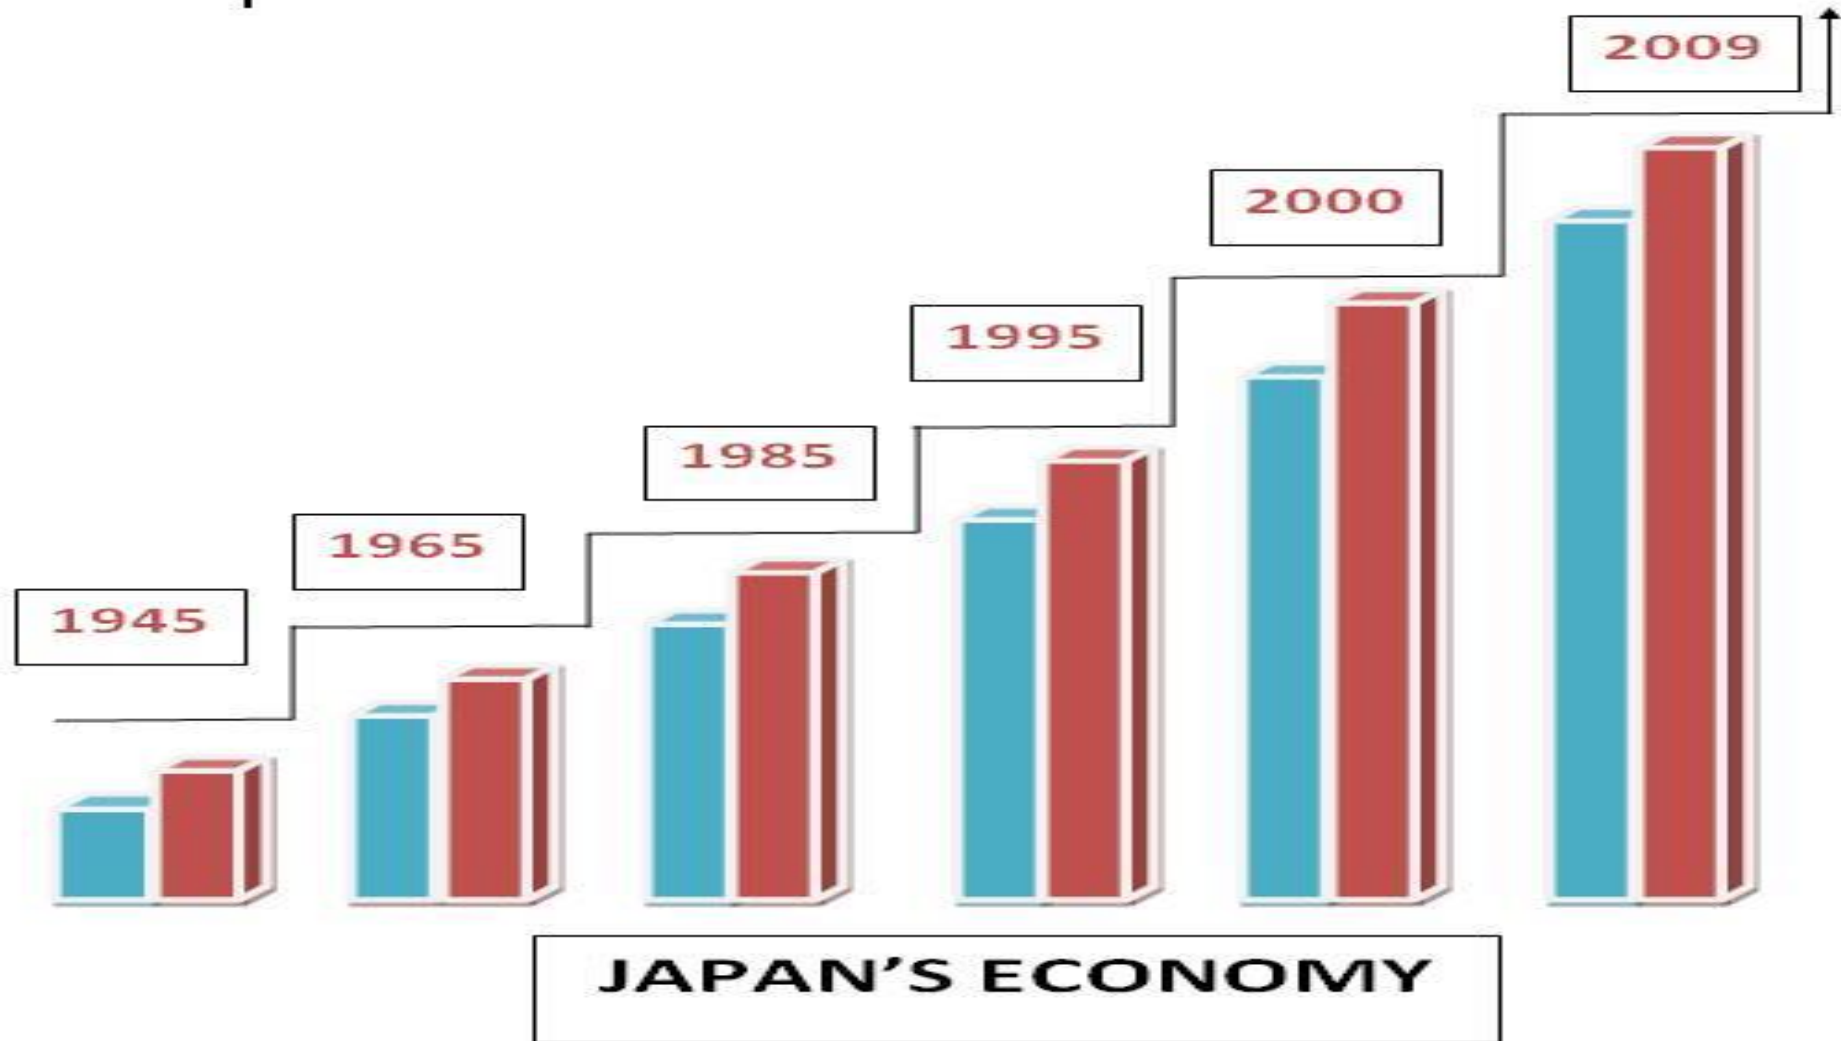

# EDUCATION

Literacy rate in Japan is 99.9%(2006).

# HARD WORK

Unemployment in Japan is 3.4% (1997).

## 2008 List by the [International Monetary Fund](#)

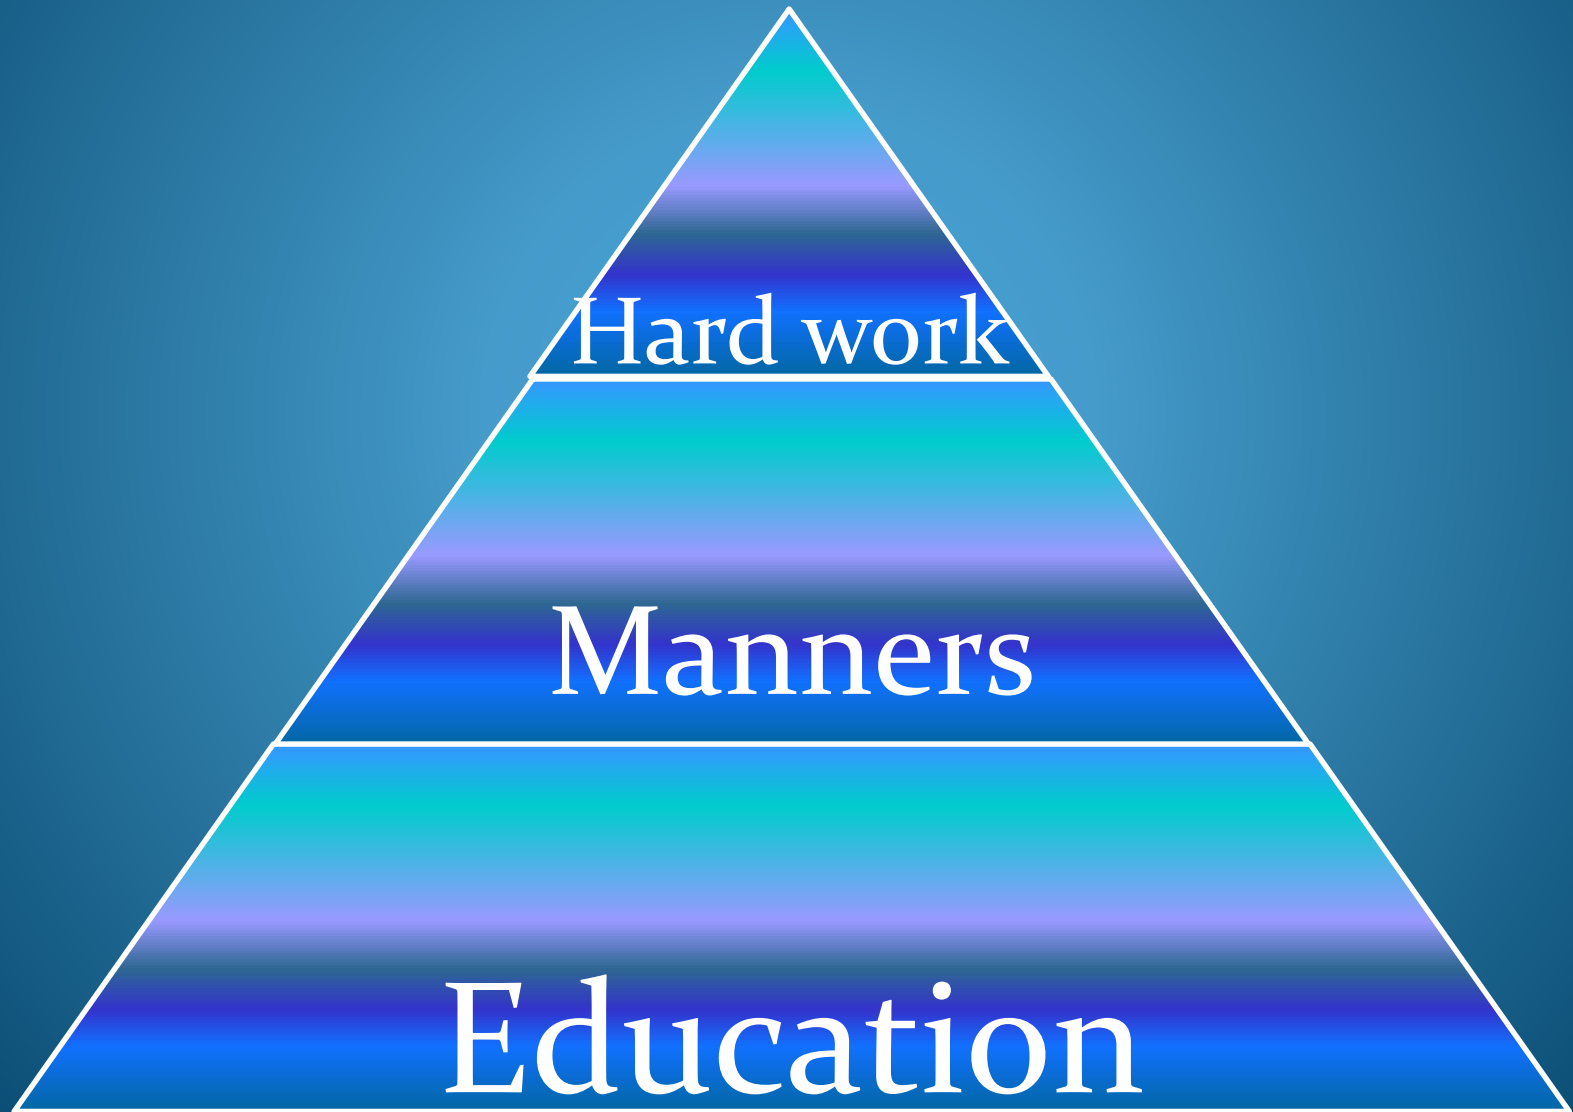

Rank	Countries	GDP (millions of USD)
1	 <a href="#">United States</a>	14,264,600
2	 <a href="#">Japan</a>	4,923,761
3	 <a href="#">People's Republic of China</a>	4,401,614
4	 <a href="#">Germany</a>	3,667,513
5	 <a href="#">France</a>	2,865,737
6	 <a href="#">United Kingdom</a>	2,674,085
7	 <a href="#">Italy</a>	2,313,893
8	 <a href="#">Russia</a>	1,676,586
9	 <a href="#">Spain</a>	1,611,767
10	 <a href="#">Brazil</a>	1,572,839

The most important and  
valuable thing for  
Japanese is....

THE EDUCATION OF  
THEIR CHILDREN...

# Fundamentals of SUCCESS...

# Do You Know..

Japan succeeded after the disaster:  
When Japanese are asked about bombing most of them answered “ that was a disaster for us but there was concealed welfare for us. Before disaster our consideration was weapons and war but after disaster we started building , building and building, not only our country but we have built the world.”

# Do You Know..

Japan puts 100s of goals for success and achieved most of them:

1. Best cars of the world.
2. Best TVs in the world.
3. Best DVD players in the world.
4. Best fridges in the world.
5. Best washing machines in the world.... and so on.

# Do You Know..

Japan achieved these goals in different ways. e.g.

It has not only one best car but so many.

1. Toyota.
2. Honda
3. Suzuki
4. Mitsubishi
5. Nissan
6. Daihatsu
7. Mazda
8. Isuzu... and so on.

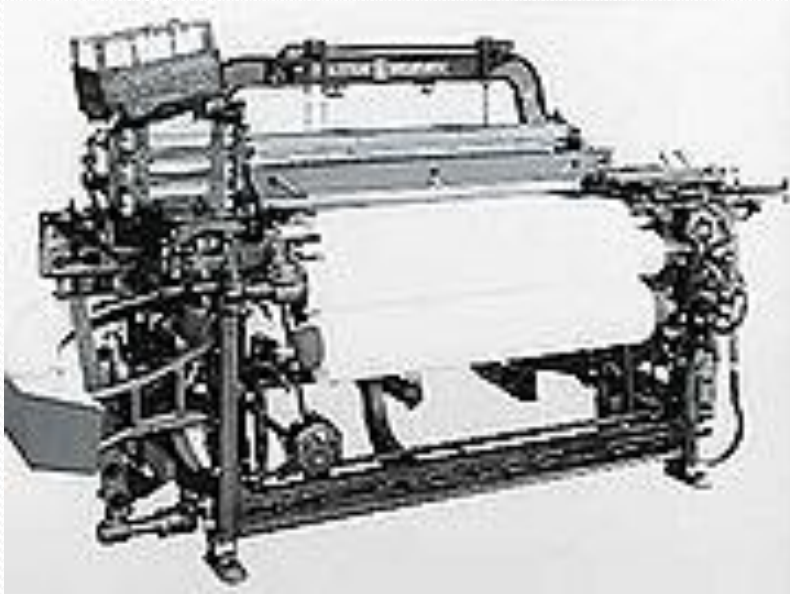

# Do You Know..

## Toyota is the first Japanese car.

Toyoda

to

Toyota...

**Toyoda automatic loom (Type G)**

**Replica of the Toyota Model AA, the first production model of Toyota in 1936**

# How did Japan succeed??

Education

Manners

+

Hard work

=

Success

# Japanese are proud!

- They are pioneers of technology
- They are leaders in automobiles
- They are unique in their systems
- They made life easy
- You can not imagine a world without Japan

Did Japan Succeed???

Let us analyze....

لَا يَسْتَوِي أَصْحَابُ النَّارِ وَأَصْحَابُ الْجَنَّةِ أَصْحَابُ الْجَنَّةِ هُمُ الْفَائِزُونَ ﴿٢٠﴾

(سورة الحشر: ٢٠)

Not equal are the dwellers of the Fire and the dwellers of the Paradise. It is the dwellers of Paradise that will be successful. (20)

فَذَرْنِي وَمَنْ يُكذِّبُ بِهَذَا الْحَدِيثِ سَنَسْتَدْرِجُهُمْ مِنْ حَيْثُ لَا يَعْلَمُونَ ﴿٤٤﴾  
وَأُمْلِي لَهُمْ إِنَّ كَيْدِي مَتِينٌ ﴿٤٥﴾

(سورة القلم: ٤٤ - ٤٥)

Then leave Me Alone with such as belie this Qur'an. We shall punish them gradually from directions they perceive not. (44) And I will grant them a respite.

Verily, My Plan is strong. (45)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ ○

وَالْعَصْرِ ۝ إِنَّ الْإِنْسَانَ لَفِي خُسْرٍ ۝ إِلَّا الَّذِينَ آمَنُوا وَعَمِلُوا الصَّالِحَاتِ

وَتَوَاصَوْا بِالْحَقِّ وَتَوَاصَوْا بِالصَّبْرِ ۝ (سورة العصر)

Knowledge without  
Emaan is a great failure

الَّذِينَ آمَنُوا

Hard work without  
knowledge is a great failure

عَمِلُوا الصَّالِحَاتِ

Knowledge & Hard work without  
good advise is a great failure

تَوَاصَوْا بِالْحَقِّ

Knowledge, Hard work and good advise without  
patience (manners) is a great failure

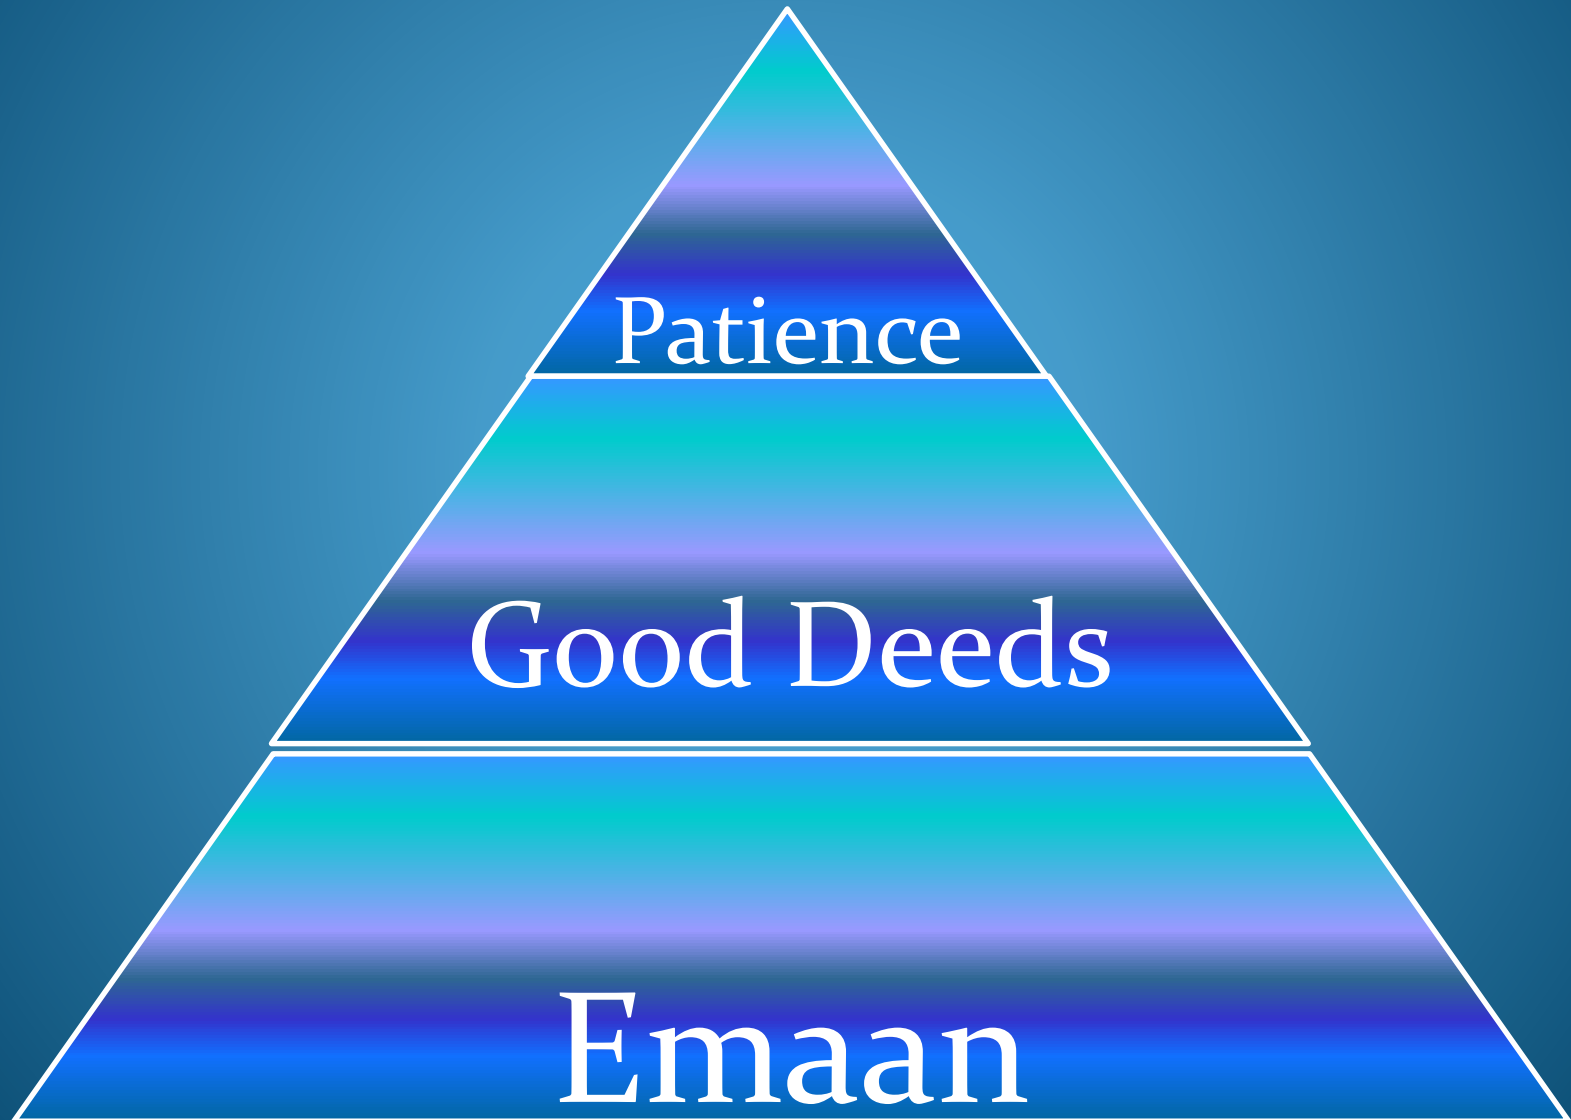

تَوَاصَوْا بِالصَّبْرِ

# Fundamentals of the fundamentals....

- The most important Fundamental of education is  
**EMAAN.**
- The most important Fundamental of hard work is  
**GOOD DEEDS.**
- The most important fundamental of manners is  
**PATIENCE.**

# Fundamentals of Real SUCCESS...

رَبَّنَا آتِنَا فِي الدُّنْيَا حَسَنَةً وَفِي الْآخِرَةِ حَسَنَةً وَقِنَا عَذَابَ النَّارِ ﴿٢٠١﴾

(سورة البقرة: ٢٠١)

And of them there are some who say: "Our Lord! Give us in this world that which is good and in the Hereafter that which is good, and save us from the torment of the Fire!" (201)

وجزاكم الله خيرا
